PROFESSIONAL SUMMARY

Third-year BCA Honours student with hands-on experience in PHP, MySQL, JavaScript and responsive web development. Familiar with object-oriented programming, MVC architecture, database management and data structures. Developing full-stack applications and interested in entry-level Software Developer and PHP Developer opportunities.

TECHNICAL SKILLS

- **Programming:** PHP, Python, Java, C, JavaScript
- **Web:** HTML5, CSS3, Bootstrap
- **Databases:** MySQL, SQL
- **Core CS:** DSA, OOP, DBMS, Operating Systems, Computer Networks
- **Tools:** Git, GitHub, Visual Studio Code, XAMPP

PROJECTS

PlacementPro Campus Placement Portal Sep 2026 – Present

PHP, MySQL, JavaScript, AJAX, Bootstrap

- Developing a comprehensive web-based campus placement portal featuring role-based access for students, administrators, coordinators, and recruiters.
- Engineered secure session management and authentication workflows, including student profile completion routing, dynamic dashboards, and universal logout logic.
- Implemented dynamic job management features, allowing placement coordinators to securely upload, edit, and delete job postings with ID verification.
- Utilized JavaScript AJAX for asynchronous form submissions alongside PHP/MySQLi prepared statements to prevent SQL injection and secure database queries.
- Developed automated job eligibility logic that seamlessly matches applicant CGPA against the minimum CGPA requirements specified in job postings.

Personal Developer Portfolio Aug 2026

HTML, CSS, JavaScript, Git

- Designed and developed a responsive portfolio website using HTML, CSS and JavaScript.
- Organized project and skills information into a clear, mobile-friendly interface.
- Published the portfolio using GitHub Pages.

EDUCATION
